Limited Supply. Offer Only Valid in Canada.

Increase your productivity with the top six ezlase procedures: troughing for impressions, gingival recontouring, frenectomy, aphthous ulcers & herpetic lesions, sulcular debridement and temporary relief of pain (TMD).

*"After dental school and my associateship (6 years) I felt very comfortable with my crown and bridge procedures. But after purchasing the Ezlase, I have to say that I sleep better knowing that the impressions I now send to the lab will create crowns that fit like a glove! I have also started doing cosmetic procedures (gingival recontouring) as well as treating ulcers and cold sores – my patients love it!"*
